SAFEGUARDING OF VULNERABLE ADULTS POLICY

Practice lead: Dr Tim Sephton

INTRODUCTION

The purpose of this document is to set out the policy of the Practice in relation to the protection of vulnerable adults.

This local policy reflects the Safeguarding Adults Multi-Agency Policy agreed by the Bath & North East Somerset Local Safeguarding Adults Board. The full multi-agency policy can be found at http://www.bathnes.gov.uk/sites/default/files/siteimages/lsab_multiagency_policy_june_2013.pdf or in hard copy in the Safeguarding Adults folder.

Who is a vulnerable adult?
Anyone over the age of 18 years who may be unable to protect themselves from abuse, harm or exploitation, because of:

- Physical impairment
- Sensory impairment
- Old age or frailty
- Dementia
- Learning disability
- Mental health problem

Forms of abuse
- Neglect – ignoring mental or physical needs, care, education, or basic life necessities or rights
- Bullying – family, carers, friends
- Financial – theft or use of money or possessions
- Sexual – assault, rape, non-consensual acts (including acts where unable to give consent), touching, indecent exposure
- Physical – hitting, assault, man-handling, restraint, pain or forcing medication
- Psychological – threats, fear, being controlled, taunts, isolation
- Discrimination – abuse based on perceived differences and vulnerabilities
- Institutional abuse – in hospitals, care homes, support services or individuals within them, including inappropriate behaviours, discrimination, prejudice, and lack of essential safeguards
ROUTINE MANAGEMENT ACTION TO SAFEGUARD AGAINST ABUSE

The Practice will name an Adult Safeguarding Lead, whose responsibilities are set out in Appendix A.

All staff recruitment and selection will be carried out according to the Practice Recruitment Policy and by staff who have been trained in safer recruitment principles. On appointment, all staff who are considered to be in a regulated activity will undergo a Disclosure & Barring Service enhanced check.

All staff will receive mandatory training in Safeguarding at Level 1 as part of induction and at least every three years from then on. Nursing staff and senior managers will be trained to Level 2 and GPs to Level 3.

SUSPECTED SAFEGUARDING INCIDENTS: ACTION REQUIRED

The flowchart at Appendix B sets out the actions expected of non-clinical and clinical staff.

In all cases the welfare of the patient is paramount.
Staff must be prepared to consult with colleagues and take advice from experts.
Anyone involved in a safeguarding incident must keep comprehensive and clear notes at the time of the incident.

Information sharing is an essential element of good safeguarding practice. The Practice will follow the guidance set out in “Information Sharing: Guidance for Practitioners and Managers”, published by the Dept for Children, Schools & Families in 2008. A flowchart based on this guidance is included in the Safeguarding Adults hard copy folder for staff.

All staff
It is the responsibility of all Practice staff, whatever their role, to be alert to the possibility and warning signs of abuse, and to act on any concerns. Warning signs may not be linked to physical sighting of the patient, and could include failure to collect medication, failure to attend hospital appointments, frequent out of hours calls.

Concerns should be passed on at the earliest opportunity to the Practice Lead, Duty Doctor, another Partner, or any other doctor or nurse.

Clinical staff
Adult safeguarding concerns may be raised with any doctor or nurse in the absence of the Practice Lead. It is the responsibility of that clinician to decide whether or not the issue meets safeguarding criteria and to act according to the flowchart. Unless there is an immediate risk to the patient’s safety, the clinician receiving information about a potential safeguarding issue
is advised to discuss this with at least one internal clinical colleague before involving any
outside agency, and always if possible to discuss the case with any other GP who has been
recently and actively involved in the care of the patient. This will enable the Practice to reach
a considered opinion on appropriate action.

Where abuse of a vulnerable adult is suspected, the welfare of the patient takes priority. In
deciding whether to disclose concerns to a third party or other agency the GP will assess the
risk to the patient. Ideally the matter should be discussed with the patient involved first, and
attempt made to obtain consent to refer the matter to the appropriate agency. Where this is
not possible, or in the case of emergency where serious harm is to be prevented, the
patient’s doctor will balance the need to protect the patient with the duty of confidentiality
before deciding whether to refer. The patient should usually be informed that the doctor
intends to disclose information, and advice and support should be offered.

Due regard will be taken of the patient’s capacity to provide a valid consent, according to the
statutory framework set out in the Mental Capacity Act 2005. If the patient is resident in a
nursing home, then the GP will also be mindful of the Deprivation of Liberty Safeguards.

In assessing the risk to the individual, the following factors will be considered:

- Nature of abuse, and severity
- Chance of recurrence, and when
- Frequency
- Vulnerability of the adult (frailty, age, physical condition etc.)
- Those involved – family, carers, strangers, visitors etc.
- Whether other third parties are also at risk (other members of the same household
  may being abused at the same time)

All actions relating to a suspected or actual safeguarding case must be documented on the
patient’s clinical record in enough detail to be clearly understood by another person reading
the record. Where there is immediate concern for the patient’s safety, a warning to this effect
should be placed on the patient’s record, viewable every time the record is accessed. If the
case proceeds to a formal multidisciplinary level, then an appropriate safeguarding Read code
must be applied. Only GPs may apply warnings and Read codes.

Any safeguarding incident must be brought to the attention of the Practice Lead as soon as
possible after the event, so that s/he has a full understanding of adult safeguarding issues
within the Practice.

The Practice will co-operate fully with any multi-disciplinary case management of our
patients. The Practice Lead will normally be responsible for this, but there may be occasions
when another clinician who has been more closely involved with the care of the patient
should be included in place of or as well as the Practice Lead. Minutes of multi-disciplinary
meetings should not be scanned on to the patient’s record, although the GP’s report to the meeting should be.

ALLEGATIONS

If a vulnerable adult makes an allegation about abuse, whether concerning themselves or a third party, this information must be treated as a suspected safeguarding incident. It should be passed as quickly as possible to the Practice Lead, who will take advice as s/he thinks necessary. If the allegation is against a member of the Practice team, this will be investigated and if proven, the member of staff will be subject to the Practice Disciplinary Procedure, or if the allegation is against a Partner, s/he will be subject to the terms of the Partnership Agreement. If the allegation is against the Practice Safeguarding Adults Lead, then the investigation will be led by another Partner.

If a member of staff has concerns about the behaviour of another member of the team, then the terms of the Practice Whistleblowing Policy will apply.

CONTINUOUS IMPROVEMENT

The Practice recognises that the occurrence of safeguarding cases is comparatively rare, and the issues associated with such cases may not be part of our routine work. It is therefore very important to make sure that all staff are ready to deal with them appropriately when they do occur. Every case will be treated as an important opportunity for learning at both operational and clinical levels.

The key mechanism for learning from safeguarding cases is through the Significant Events Policy. Any safeguarding issue, whether or not it goes beyond the Practice, should be considered as a significant event if there is the potential for learning from it. At every Significant Events meeting it will be noted whether there are any safeguarding items on the agenda. Organisational matters will be dealt with at the meeting, while clinical matters will be referred to a clinical meeting.

It is the responsibility of the Practice Lead and any other clinician who has been involved in a safeguarding case to disseminate the learning from cases, training or any other form of updating at clinical meetings.

Resources:
At the date of this policy, there is guidance on adult safeguarding at http://www.suliscom.co.uk/practice-policies/safeguarding/adults/
The documents include local policies and the BMA toolkit for GPs.
Hard copies of these documents, along with this policy, are kept in the Safeguarding Adults folder in the Secretaries’ Room.
APPENDIX A

The Practice Lead for Safeguarding Vulnerable Adults:

- Implements Chew Medical Practice Safeguarding Vulnerable Adults policy
- Ensures that the practice meets contractual guidance
- Ensures safe recruitment procedures
- Supports reporting and complaints procedures
- Advises practice members about any concerns that they have
- Ensures that practice members receive adequate support when dealing with vulnerable adults
- Leads on analysis of relevant significant events
- Determines training needs and ensures they are met
- Makes recommendations for change or improvements in practice procedural policy
- Acts as a focus for external contacts including the lead GP
- Has regular meetings with others in the Primary Healthcare Team to discuss particular concerns
Appendix B

Adult Safeguarding Reporting & Review Flow Chart

**Step 1: all staff**
Identify any incident which leads or could lead to harm/abuse – see policy for definitions

**Step 2: all staff**
- Ensure patient is immediately safe
- Seek advice from one of the following, starting at the top of the list:
  - Tim Sephton, Practice Lead
  - Or Duty Doctor
  - Or other Partner
  - Or any other GP or nurse
  - Or a manager
- Call 999 for police immediately if criminal act
- Make a note of what happened to give to GP or nurse (not on Emis)

**Step 3: GP or nurse**
- Assess situation: does incident meet safeguarding adults criteria?
- Take immediate action and make alert
- Seek advice if needed
  - Yes – meets safeguarding criteria
    - Does the patient live in BANES or N Somerset? Check on list of villages in catchment area
  - No – does not meet safeguarding criteria
    - Consider whether a warning is appropriate on patient Emis record and document appropriately
    - Make health or social care referral if unmet needs are identified
    - Consider whether incident is a significant event internally
      - if so, notify Tonia Grant

If BANES:  
- Phone Sirona on 01225 396000
- This can be followed up by a written summary if needed – you will be told where to send an email or fax summary
- Put a warning on patient Emis record, document incident on Emis, add a Read code if appropriate
- Notify Tonia Grant to start Significant Event process

If N Somerset:  
- Phone Care Connect on 01275 8888801

**Step 4: Sirona / Care Connect**
Sirona / Care Connect will process safeguarding alert & decide if investigation is required

**Investigation not required**
Sirona / Care Connect will advise why investigation not required

Adult Safeguarding referral contacts: Kate Purser, BANES CCG lead 01225 831810, or BANES (Sirona): 01225 396000  
North Somerset (Care Connect): 01275 888801  
Somerset: 0845 345 9133  
Wiltshire: 0300 456 0111  
If Sirona are unavailable for any reason, try one of the other numbers for advice.
